Bubbles Bathrooms

Lapis lazuli, a deep-blue celestial stone favoured by the client, was introduced by incorporating blue agate.

In balanced composition, this bold and exquisite stone provides that pop of colour to create this vibrant bathroom.

The more you examine this bathroom, the more it reveals itself as functional and aesthetically perfect.

A playful balance of opposites in colour and shape are used to provoke the senses.

Meticulous attention to detail allows form and function. This bathroom is bold and luxurious with a balance of style — exactly how the client imagined and more.

"A brilliant design and layout," the judges said. "Spacious in design and practical with quality fixtures and fittings."
